

SUJAL KAYASTHA

CYBER SECURITY STUDENT

Chandragiri, Kathmandu, Nepal • +977-9861255647 • sujalkayastha20@gmail.com
[linkedin.com/in/sujalkayastha](https://www.linkedin.com/in/sujalkayastha)

SUMMARY

Motivated Cyber Security student with practical knowledge of vulnerability assessment, penetration testing, and Linux-based security environments. Experienced in using security tools such as Nmap, Burp Suite, Wireshark, and Metasploit through academic projects, lab environments, and self-practice. Strong understanding of ethical hacking concepts, networking fundamentals, and basic system security practices. Passionate about learning offensive and defensive security techniques and building hands-on technical skills.

EDUCATION

Bachelor's Degree in Ethical Hacking and Cyber Security

- Softwarica College of IT & E-Commerce
- (Affiliated with Coventry University, UK)
- Expected Graduation: 2026

Relevant Coursework

- Ethical Hacking and Penetration Testing
 - Network Security
 - Operating Systems and Linux Administration
 - Vulnerability Assessment and Risk Management
 - Web Application Security
 - Digital Forensics Fundamentals
-

PROJECTS

- Conducted multiple controlled penetration tests on intentionally vulnerable systems to simulate real-world attack scenarios.
 - Performed full attack lifecycles including reconnaissance, exploitation, post-exploitation, and reporting.
 - Maintained personal lab environments using virtual machines for continuous skill development.
-

CERTIFICATIONS and ACHIEVEMENTS

- Certified Cybersecurity Educator Professional (CCEP)
- TryHackMe – Penetration Testing Path (Completed)
- HackTheBox – Starting Point (Free Tiers 1-3)
- CTF – Softwarica

TECHNICAL SKILLS

Operating Systems

- Kali Linux, Ubuntu, Windows

Security & Penetration Testing Tools

- Nmap, Burp Suite, Metasploit, Wireshark
- Gobuster, Nikto, Netcat
- John the Ripper Security Domains
- Vulnerability Assessment & Penetration Testing (VAPT)
- Network Security Fundamentals
- Privilege Escalation (Linux – basic to intermediate)

Scripting & Technologies

- Bash scripting
- Python (basic automation)
- HTTP/HTTPS, TCP/IP, DNS

PROFESSIONAL SKILLS

- Strong analytical and problem-solving skills
- Ethical and disciplined approach to security testing
- Clear technical documentation and reporting ability
- Comfortable working in Linux-based environments
- Continuous learner with a security-first mindset
